No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (27 Congress Street, Salem, Massachusetts 01970), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1987 articles are as shown on the article title pages: if no fee code appears on the title page, the copy fee is the same as for current articles.

CONTENTS OF VOLUME 42

NUMBER 1, FEBRUARY 1987

JEFFREY M. CHEEK, EDWARD M. POSTLETHWAIT, MARIAN E. SHAW, AND EDWARD D. CRANDALL. Effects of Exposure to NO_2 on Dome Formation in Alveolar Epithelial Cell Monolayers. 1

N. K. MEHROTRA, SUSHIL KUMAR, RAJESH AGARWAL, AND MARY ANTONY. Jute Batching Oil: A Tumor Promoter on Mouse Skin. . . . 12

C. B. DISSANAYAKE, J. M. NIWAS, AND S. V. R. WEERASOORIYA. Heavy Metal Pollution of the Mid-canal of Kandy: an Environmental Case Study from Sri Lanka. 24

MYRON A. MEHLMAN AND CARMIA BOREK. Toxicity and Biochemical Mechanisms of Ozone. 36

B. BARAŃSKI. Effect of Cadmium on Prenatal Development and on Tissue Cadmium, Copper, and Zinc Concentrations in Rats. . . . 54

DUANE L. PEAVY AND EDWARD J. FAIRCHILD II. Toxicologic Interactions between Ozone and Bacterial Endotoxin. 63

ERMINIO MARAFANTE AND MARIE VAHTER. Solubility, Retention, and Metabolism of Intratracheally and Orally Administered Inorganic Arsenic Compounds in the Hamster. 72

GREGORY L. FINCH, GERALD L. FISHER, AND THOMAS L. HAYES. The Pulmonary Effects and Clearance of Intratracheally Instilled Ni_3S_2 and TiO_2 in Mice. 83

VICTOR L. ROGGLI, MICHAEL H. GEORGE, AND ARNOLD R. BRODY. Clearance and Dimensional Changes of Crocidolite Asbestos Fibers Isolated from Lungs of Rats following Short-Term Exposure. . . . 94

G. KRISHNA, J. NATH, L. SOLER, AND T. ONG. *In Vivo* Induction of Sister Chromatid Exchanges in Mice by Nitrosated Coal Dust Extract. 106

E. YOKOYAMA, Z. NAMBU, I. ICHIKAWA, I. UCHIYAMA, AND H. ARAKAWA. Pulmonary Response to Exposure to Ozone of Emphysematous Rats. 114

ANDREW CHURG AND BARRY WIGGS. Types, Numbers, Sizes, and Distribution of Mineral Particles in the Lungs of Urban Male Cigarette Smokers. 121

E. AZOULAY-DUPUIS, M. A. GOUGEROT-POCIDALO, L. KRAUS, AND J. MOREAU. *In Vivo* Nitrogen Dioxide Exposure Depresses Spleen Cell *in Vitro* Mitogenic Responses: Effects of Sulfur Compounds. . 130

LARS JOHANSSON, PETER SJÖBLOM, AND MARIANN WIDE. Effects of Lead on the Male Mouse as Investigated by *in Vitro* Fertilization and Blastocyst Culture. 140

FERMIN RIVERA, GUADALUPE ROY-OCOTLA, IRMA ROSAS, ELIZABETH RAMIREZ, PATRICIA BONILLA, AND FERNANDO LARES. Amoebae Isolated from the Atmosphere of Mexico City and Environs. . . . 149

JOHNNY L. CARSON, ALBERT M. COLLIER, SHIH-CHIN HU, CRAIG A. SMITH, AND PAUL STEWART. The Appearance of Compound Cilia in the Nasal Mucosa of Normal Human Subjects following Acute, *in Vivo* Exposure to Sulfur Dioxide. 155

H. E. ROSE AND J. QUARTERMAN. Dietary Fibers and Heavy Metal Retention in the Rat. 166

DAVID J. HOFFMAN, BARNETT A. RATTNER, LOUIS SILEO, DOUGLAS DOCHERTY, AND TIMOTHY J. KUBIAK. Embryotoxicity, Teratogenicity, and Aryl Hydrocarbon Hydroxylase Activity in Forster's Terns on Green Bay, Lake Michigan. 176

P. H. FAIR AND A. R. FORTNER. Effect of Ingested Benzo[*a*]pyrene and Cadmium on Tissue Accumulation, Hydroxylase Activity, and Intestinal Morphology of the Black Sea Bass, *Centropristis striata*. . . . 185

GERALD SONNENFELD AND ANDREA M. ROSE. Inhibition of Interferon-α/β Induction by Crystalline Cadmium Sulfide. 196

JOHN GAMBLE, WILLIAM JONES, AND STEPHEN MINSHALL. Epidemiological–Environmental Study of Diesel Bus Garage Workers: Acute Effects of NO_2 and Respirable Particulate on the Respiratory System 201

GEORGE J. JAKAB. Modulation of Pulmonary Defense Mechanisms by Acute Exposures to Nitrogen Dioxide. 215

H. BABICH AND E. BORENFREUND. *In Vitro* Cytotoxicity of Organic Pollutants to Bluegill Sunfish (BF-2) Cells. 229

B. D. CARLTON, D. L. HABASH, A. H. BASARAN, E. L. GEORGE, AND M. K. SMITH. Sodium Chlorite Administration in Long–Evans Rats: Reproductive and Endocrine Effects. 238

V. VILÍM, J. WILHELM, P. BRZÁK, AND J. HURYCH. Stimulation of Alveolar Macrophages by Mineral Dusts *in Vitro:* Luminol-Dependent Chemiluminescence Study. 246

REVIEW

C. O. ENWONWU. Potential Health Hazard of Use of Mercury in Dentistry: Critical Review of the Literature. 257

ANNOUNCEMENT 275

NUMBER 2, APRIL 1987

REVIEW

L. KIREMIDJIAN-SCHUMACHER AND G. STOTZKY. Selenium and Immune Responses. 277

REGULAR ARTICLES

SAROJ GUPTA. Physiological Stress Induced by Sublethal Concentrations of Phenolic Compounds in *Notopterus notopterus:* Measurement of Hydrolytic Enzymes. 304

SÁNDOR TAKÁCS AND ALBERT TATÁR. Trace Elements in the Environment and in Human Organs. I. Methods and Results. . . . 312

HITOSHI MICHIBATA, YASUYUKI NOJIMA, AND MANABU K. KOJIMA. Stage Sensitivity of Eggs of the Teleost *Oryzias latipes* to Cadmium Exposure. 321

R. BÉGIN, S. MASSÉ, M. ROLA-PLESZCZYNSKI, M. GEOFFROY, M. MARTEL, Y. DESMARAIS, AND P. SÉBASTIEN. The Lung Biological Activity of American Attapulgite. 328

E. YOKOYAMA, Z. NAMBU, I. UCHIYAMA, AND H. KYONO. An Emphysema Model in Rats Treated Intratracheally with Elastase 340

MALCOLM MACLURE. Asbestos and Renal Adenocarcinoma: A Case–Control Study. 353

K. C. HEMAVATHY AND N. B. KRISHNAMURTHY. Evaluation of Lannate 20, a Carbamate Pesticide in the Germ Cells of Male Mice. 362

ATTILIO ARILLO AND FRANCESCA TOSETTI. Denitrosation of *N*-Nitrosodimethylamine and *N*-Nitrosomethylurea by Liver Microsomes from Trout (*Salmo gairdneri* Rich.). 366

GARY H. HEINZ. Mercury Accumulation in Mallards Fed Methylmercury with or without Added DDE. 372

DUANE L. PEAVY AND EDWARD J. FAIRCHILD II. Induction of Metallothionein Synthesis in Human Peripheral Blood Leukocytes 377

MARK GERMINE. Sepiolite Asbestos from Franklin, New Jersey: A Case Study in Medical Geology. 386

KATSUMI YOSHIDA, NAOKO SUGIHIRA, MICHIKO SUZUKI, TOSHIRO SAKURADA, SHINTARO SAITO, KAORU YOSHINAGA, AND HIROSHI SAITO. Effect of Cadmium on T_4 Outer Ring Monodeiodination by Rat Liver. 400

JAY BUTTERMAN, PHILLIP C. CHAN, AND LEO KESNER. Generation of Hemolytic Activity in Ozone-Treated Phosphatidylcholine. . 406

KOICHI KONO, YASUHISA YOSHIDA, HIROSHI YAMAGATA, MISUZU WATANABE, YASUYUKI SHIBUYA, AND KAZUHIDE DOI. Urinary Fluoride Monitoring of Industrial Hydrofluoric Acid Exposure. 415

M. OGATA AND H. AIKOH. Ratio of Organs to Blood of Mercury during Its Uptake by Normal and Acatalasemic Mice. 421

YUJI TAKAHASHI AND TAKASHI MIURA. A Selective Enhancement of Xenobiotic Metabolizing Systems of Rat Lungs by Prolonged Exposure to Ozone. 425

ROBERT L. SHIELDS AND W. M. GOLD. Effect of Inhaled Ozone on Lung Histamine in Conscious Guinea Pigs. 435

E. AZOULAY-DUPUIS, G. BOULEY, J. MOREAU, M. MUFFAT-JOLY, AND J. J. POCIDALO. Evidence for Humoral Immunodepression in NO_2-Exposed Mice: Influence of Food Restriction and Stress 446

AUTHOR INDEX FOR VOLUME 42 563

The Subject Index for Volume 42 will appear in the December 1987 issue as part of a cumulative index for the year 1987.

INSTRUCTIONS TO AUTHORS

Manuscripts. Papers may represent original research in any of the disciplines concerned with man–environment relationships: it is anticipated that the relevance of the findings to broad problems of environmental biology and environmental medicine will be considered. Analytical and integrative reviews are equally eligible. The editorial emphasis of the Journal is on research concerning health effects of environmental alterations, broadly considered; engineering and control efforts are well served elsewhere.

Selected Book Reviews will be included.

Submission of Manuscripts. These should be submitted in duplicate to ENVIRONMENTAL RESEARCH, Editorial Offices, Environmental Sciences Laboratory, Mount Sinai School of Medicine, Fifth Avenue and 100th Street, New York, New York 10029.

Original papers only will be considered. Manuscripts are accepted for review with the understanding that the same work has not been and will not be nor is presently submitted elsewhere, and that its submission for publication has been approved by all of the authors and by the institution where the work was carried out; further, that any person cited as a source of personal communications has approved such citation. Written authorization may be required at the Editor's discretion. Articles and any other material published in *Environmental Research* represent the opinions of the author(s) and should not be construed to reflect the opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the Publisher. The Publisher will not refuse any reasonable request by the author for permission to reproduce any of his or her contributions to the journal.

All papers will be published in English. The text of the manuscript should not exceed 10 double-spaced pages (excluding title page, abstract, and references).

Form of Manuscript. Manuscripts should be typewritten (not mimeographed) with double or triple spacing and wide margins on high-quality bond paper. Subdivision of the article into *Abstract* (50–200 words), *Introduction, Materials and Methods, Results, Discussion, Acknowledgments, and References* is recommended. In addition, section headings are often useful.

The first page of the manuscript should contain the article title, author's name, and affiliation (include zip code where applicable). The second page should contain a proposed running head of fewer than 40 characters and the address of the person to whom proofs are to be sent. In the upper left-hand corner of each following page (including Reference pages, Tables, etc.) please type a shortened form of the title and the surname of the senior author. Please also number each of these pages. The abstract should not exceed 200 words. Include five descriptive key words for computer-aided searching.

Abbreviations. Follow the usage established by *Chemical Abstracts*. If others are utilized define on first use.

Figures. Number all figures consecutively with Arabic numerals; legends should be typed together on a separate sheet. Lettering on the original figures should be large enough to take a reduction of 50–60 percent. Graphs should be plotted with black India ink on light blue coordinate paper, no larger than 8½ × 11 in. Grid lines that are to show in the engraving should be inked in black. Photographs should be glossy prints (5 × 7 or 8 × 10 in.) with strong contrasts. X-Rays should be right-reading glossy prints. Providing an overlay that indicates the most critical areas of halftones will aid in ensuring high-quality reproduction. Illustrations in color can be accepted only if the authors defray the cost.

Tables. Number all tables in order of appearance (with Arabic numerals); type each table double-spaced on a separate page. Each table should have a short descriptive title typed (double-spaced) above the table. Footnotes to tables (indicated by superscript lowercase letters, ^{a,b}, etc.) should be typed (double-spaced) at the end of the table. Keep in mind the dimensions of the journal when planning the number of columns in a table.

Footnotes. Text footnotes should be avoided whenever possible.

References. These are to be cited in the text by the author's name and year of publication. References should be listed alphabetically in an unnumbered list at the end of the paper in the following style:

Coleman, D. C., Reid, C. P. P., and Cole, C. V. (1983). Biological strategies of nutrient cycling in soil systems. *In* "Advances in Ecological Research" (A. MacFayden and E. D. Ford, Eds.). Vol. 13, pp. 1–55. Academic Press, New York/London.

Rice, E. L. (1984). "Allelopathy," 2nd ed. Academic Press, New York.

Wong, M. H., and Lau, W. M. (1985). Root growth of *Cynodon dactylon* and *Eleusine indica* collected from motorways at different concentrations of lead. *Environ. Res.* **36,** 257–267.

The names of journals should be abbreviated according to *Index Medicus,* 1980, or *Chemical Abstracts Service Source Index,* 1985. Include in the reference list articles that are "in press," but "manuscript in preparation," "personal communication," and "unpublished observations" are to be avoided.

Reprints. A reprint order form will accompany the proofs. The corresponding author receives 50 reprints free of charge, and additional copies may be ordered.

Correspondence. Editorial communications should be addressed to ENVIRONMENTAL RESEARCH, Editorial Offices, Environmental Sciences Laboratory, Mount Sinai School of Medicine, Fifth Avenue and 100th Street, New York, NY 10029. Correspondence and information concerning subscriptions should be addressed to Academic Press, Inc., Journal Subscription Department, 1 East First Street, Duluth, MN 55802. Correspondence concerning manuscripts in production and proofs should be addressed to Academic Press, Inc., Journal Production Department, 1250 Sixth Avenue, San Diego, CA 92101.

David P. Hanlon and Vergil H. Ferm. The Concentration and Chemical Status of Arsenic in the Early Placentas of Arsenate-Dosed Hamsters. 546

Carl Gustaf Elinder, Monica Nordberg, Brita Palm, Lars Björk, and Lennart Jönsson. Cadmium, Zinc, and Copper in Rabbit Kidney Metallothionein—Relation to Kidney Toxicity 553
